Veterinary surgeon's signature:

\_\_\_\_\_

Date: \_\_\_\_\_

If we consider that the immunotherapy mix ordered is inappropriate we will alter the mix. We will tell you this by fax and allow you 48 hours to contact us if you consider that our change is unsatisfactory.

Please note that if you ever require us to cancel a vaccine, then this instruction must be given to us in writing and we will then confirm receipt of the cancellation request. Vaccines can only be cancelled before they have entered the manufacturing process, and this usually means within 3 days of the prescription order being received by Greendale Veterinary Diagnostics.

REPEAT PRESCRIPTION ONLY

### NEW PRESCRIPTION - CHOICE OF ALLERGENS

Choose **EITHER** column A **OR** column B

**A**

**Practice to choose:**

Please tick the appropriate boxes

Note – if more than 12 allergens are chosen, or if both a mould and a pollen are chosen, then 2 vials will be provided and charged accordingly

**B**

**Greendale to choose**

based on allergy test results and history supplied here.
